**RESOURCES**  
Tomatosphere Storyboard

A spaceship is going to Mars.  
Inside the spaceship are astronauts.

Suddenly an alarm rings!  
There is a problem with one of the bins.

One of the bins has a small hole in it.

The spaceship carries important supplies in bins.  
The bins are on the outside of the spaceship.

The astronauts go outside  
to find out what is wrong.

Oh no! That bin has the tomato seeds inside!  
The astronauts were going to plant the tomato  
seeds when they got to Mars.

The astronauts fix the hole in the bin

The astronauts now wonder how well the  
seeds will grow when they get to Mars.

There still may be a problem. The tomato  
seeds got very cold and had no air!
